

Facilitate Learning Using a Variety of Methodologies

Based on SAQA's Unit Standard 117871, NQF Level 5, 10 credits

Introduction

This unit standard will enable the learner to facilitate a well-structured and varied programme of learning, implement the principles of OBE, use a range of teaching methods and techniques and encourage learners to participate actively and confidently in the learning process.

Course Objectives

- Using knowledge and theory to develop facilitation skills
- Applying principles of OBE to facilitation of learning
- Developing learner confidence
- Encouraging co-operative learning
- Facilitating the development of critical cross-field outcomes
- Evaluating a programme of learning (series of learning events)

Course Outline

- Using knowledge and theory to develop facilitation skills
- Applying principles of OBE to facilitation of learning
- Developing learner confidence
- Encouraging co-operative learning
- Facilitating the development of critical cross-field outcomes
- Evaluating a programme of learning (series of learning events)
